2. Subdivision codes for UN/LOCODE 2001-2:

For the following 19 countries, code elements for administrative divisions (subdivisions) are included in UN/LOCODE 2001-2. The code elements are quoted from ISO 3166-2/1998 "Country subdivision code". (In the subdivision column in the UN/LOCODE code list, the 2-letter country code is not included as in all cases the subdivision relates only to the particular country concerned. The subdivision code in UN/LOCODE should be regarded as extensions to the location names. If subdivision codes are to be used as separate data elements, the full ISO 3166-2 code should be used, including the country code.)
